Preamble – The Spirit of Cricket

Cricket is a game that owes much of its unique appeal to the fact that it is to be played not only within its Laws, but also within the spirit of the game. Any action seen as abusing this spirit causes injury to the game itself.

Embracing the spirit of the game means participating, either as a player, official or spectator, fairly and exhibiting respect for other players, officials and spectators, as well as the games traditional values such as graciousness in defeat and humility in victory.

Cricket has a distinct place in Australian society and history. As an element in Australia's national identity, cricket plays a significant role. This status brings with it particular responsibilities for players, officials and spectators to conform to the high standards of fair play and personal behaviour on and off the field.

This Code of Behaviour is intended to be the minimum standard of behaviour for all members, coaches and supporters of Golden Grove Cricket Club ("the Club").
